

TECHNICAL DATA SHEET

80500 HIGH VISIBILITY SOFTSHELL JACKET

DISCREET ZIP POCKET

**MICROFLEECE
LINED FOR WARMTH**

ZIP CLOSURE

**WATER RESISTANT AND
WINDPROOF SHELL**

**SHOCK CORD
ADJUSTABLE HEM**

DESCRIPTION

Blackrock's high visibility softshell jacket is lighter than a full coat for easier movement, but is water resistant and windproof for protection against the weather and microfleece lined for warmth. It features a contrast black panel for protection against dirt with 2 bands and 2 braces of retro-reflective tape to ensure you are seen. 3 zipped pockets give plenty of document and storage.

SIZES

S - 6XL

STANDARDS

EN20471 Class 3

- Microfleece lined for warmth
- Contrast black panel protects against dirt
- Shock cord adjust hem
- 3 zipped storage pockets

MATERIALS

- 100% polyester softshell fabric
- Fleece liner

TECHNICAL DATA SHEET

CERTIFICATION

ISO 20471:2013 High-Visibility Clothing is an international standard which specifies requirements for high visibility clothing capable of visually signalling the user's presence.

High visibility clothing is grouped into three classes related to risk assessment. The classes are determined by three different minimum areas of retroreflective, fluorescent and/ or combined performance material.

A class three garment offers the highest degree of visibility.

Users should select the required class of performance based on a risk assessment of the location/situation.
