

TECHNICAL DATA SHEET

81800/81900 HI-VIS RAIN JACKET

DESCRIPTION

Blackrock's high visibility waterproof Rain Jacket is tailored to keep you safe, seen, and dry - in all weather conditions. It features taped seams together with storm flaps on the main zip, cuff and pockets, plus 2 bands and 2 braces of retro-reflective tape - achieving EN20471 Class 3 safety rating. The jacket also includes 2 large cargo pockets for added storage, a concealed, foldaway hood and elasticated storm cuffs to maximise weather protection.

KEY FEATURES

- 2 bands and 2 braces of highly reflective tape
- Waterproof taped seams
- Concealed hood
- High collar
- Elasticated storm cuffs
- Multiple storage pockets
- Two-way zip

STANDARDS

- (Yellow) EN20471 Class 3
- (Orange) EN20471 Class 3 RIS-3279-TOM
- EN343 3:1

SIZES

S - 6XL

MATERIALS

100% polyester

WASH CYCLE

25 washes

FABRIC WEIGHT

Outer: 300D PU
Coated Oxford
Inner: 190T Taffeta

TAPE

High-Reflective
5cm Poly Tape

TECHNICAL DATA SHEET

CERTIFICATION

ISO 20471:2013 High-Visibility Clothing is an international standard which specifies requirements for high visibility clothing capable of visually signalling the user's presence.

High visibility clothing is grouped into three classes related to risk assessment. The classes are determined by three different minimum areas of retroreflective, fluorescent and/ or combined performance material. A class three garment offers the highest degree of visibility.

Users should select the required class of performance based on a risk assessment of the location/situation.

Class water penetration = 1-3
Class water vapour resistance = 1-3

Protective clothing certified according to EN 343 protects against precipitation from rain or snow, fog and ground humidity. The garment fabric and seams are tested and classified on a scale of 1 to 3 (where 3 is the maximum) for water resistance, which forms the top number of the rating, and water vapour resistivity (ie. breathability), which forms the bottom number of the rating.
