SFOI RIGGER BOOT - TAN

AVAILABLE IN
TWO COLOURS

TRIPLE STITCHED
LEATHER UPPER

PROTECTIVE
STEEL TOE CAP

FAUX FUR LINING

KICKPLATE HEEL

PROTECTIVE
STEEL MIDSOLE

DESCRIPTION

One of the original safety boot styles, Blackrock's Rigger boot features a leather upper that is triple stitched for extra strength, with faux fur lining for enhanced comfort. It has both steel toe cap and midsole protection, with a kick plate on the heel for easy removal. The hardwearing, dual density PU sole is shock absorbent, anti-slip, anti-static and fuel oil resistant.

SIZES

UK 5-13

CERTIFICATION/MARKINGS

EN ISO 20345:2011 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3 WR HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
